RE: Application No.: 10/666,934
Title: BOB'S BORDER HELPER
Inventors: Robert R. Pederson and James c. Cicconi, Sr.
Filed: 1/30/2002

Dear Commissioner:

In response to the Notice of Incomplete Nonprovisonal Application dated 10/23/2003, my firm encloses the following:

- Check #1803 for \$130 (petition fee)
- Petition with Exhibits 1-24
- Certificate of Mailing (1 page)
- Postcard
- Transmittal Form (1 page)
- Fee Transmittal Form (1 page)

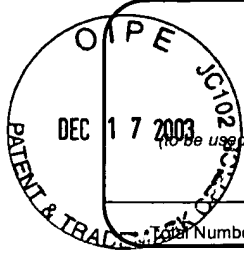

Please direct all correspondence to the address and phone number above.

Respectfully submitted,

Mary A. Whiting
Attorney for the Applicants
Reg. No. 30,601

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application No.: 10/666,934

Inventors: ROBERT R. PEDERSON AND JAMES C. CICCONI, SR.

Filing Date: 1/30/2002

Title: BOB'S BORDER HELPER

PETITION TO THE COMMISSIONER

FOR REINSTATEMENT OF 1/30/2002 FILING DATE

Applicants, Robert R. Pederson and James C. Cicconi, Sr., in response to Notice of Incomplete Nonprovisional Application dated October 23, 2003, respectfully submit this Petition to the Commissioner in order to have the original 1/30/2002, filing date of this utility application reinstated.

Since this utility application was filed by Applicants without the aid of counsel, (*pro se*), there were errors in its wording, structure and drawings. Accordingly, a corrected specification, with claims and drawings were submitted with the Notice of Incomplete Nonprovisional Application to Mail Stop Missing Parts, along with check #1804 for \$220 on December 17, 2003, (copies of new specification and claims attached as Exhibit 1, new drawings as Exhibit 2, check #1804 for \$220 as Exhibit 21, cover letter as Exhibit 22, supplemental declaration as Exhibit 23, and power of attorney as Exhibit 24).

Although not in proper form, the original application was complete and it should be given the original 1/30/2002 filing date. The following Petition shall set forth the facts and documentation that prove this.

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

1. STATEMENT OF FACTS

This is a very unusual set of facts, since the inventors filed two applications simultaneously without the aid of an attorney (*pro se*). The Applicants hired an attorney after they were advised to do so in the first Official Action by Examiner Charles Nelson¹.

The facts will be discussed in chronological order, to make Applicant's Petition clear to follow. A review of the facts proves that the original filing date of 1/30/2002, should be reinstated for this utility application 10/666,934.

The confusion appears to stem from the situation that the Applicants filed these applications *pro se* without the aid of counsel. Therefore, although the applications may not have been the most professional looking or organized applications, they were complete and did have all the required elements.

Applicants filed two sets of drawings, specifications, claims, return postcards, and two checks (check #321 for \$165 for the design application, and check # 322 for \$370 for this utility application. (See Exhibit 4 of this Petition.) While Applicants filed two complete applications, they did not staple the pages together. Admittedly, while the two application files were complete, it was confusing to determine which paper went with which application. The USPTO separated the filed papers. However, it was clear from the documents filed that two complete applications were indeed intended and filed.

The Applicants intended to file one utility and one design application. (See Applicants' Affidavits Exhibits 18 and 19). When the USPTO received this package, it mistakenly split it into two design applications. One application was given design

¹ See Exhibit 3, copy of page 2 of Official Action dated 7/31/2002 for design application 29/155,798.

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

application number 29/155,978 and the other was given design application number 29/155,901 (this was later corrected and changed to utility application number 10/666,964) (Exhibit 15, Notice of Newly Assigned Application Number).

Copies of the documents originally submitted that the Applicants intended to be a utility application are submitted with this Petition in Exhibit 4 - 9. These include:

A. BOB'S BORDER HELPER ORIGINAL SPECIFICATION WITH CLAIM (Page 2 of 3). The application number is printed on the left hand side of the page. (Exhibit 5).

B. ORIGINAL INSTRUCTIONS page. (Exhibit 6)

C. ORIGINAL FIGURES (Exhibit 7)

D. Design Patent Transmittal Form PTO/SB/18 (08-00). Applicants mistakenly used a design transmittal form. The application was correctly changed to utility application number 10/666,978. (Exhibit 8)

E. Check # 322 for \$370 (Exhibit 4)

F. Postcard (Exhibit 9)

G. Oath. Applicants did not keep a copy of the oath submitted. However, the Transmittal form has "oath" checked as submitted. (Exhibit 8).

On 2/27/2002 the USPTO mailed the filing receipt for this application (now 10/666,978 then 29/154,901), to Applicants (Exhibit 10). The filing receipt states that filing fee of \$165 was applied to this application, with 3 drawings, total claims equaling 1 claim, (as 1 independent claim). This shows a complete file was submitted. There was no indication that anything was wrong. The Applicants took the filing receipt and put it

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

in their file. Since they did not have an attorney there were not aware that a design application number, (rather than a utility application number), had been given to their application that they intended to be a utility application. (See Applicants' Affidavits Exhibits 18 and 19).

Nor did the Applicants question why only \$165 of their \$370 check was applied to this application (especially since the check for \$370 was cashed by the USPTO.) The USPTO cashed the check #321 for \$165 and applied it to design application 29/155,978.

However, although the USPTO cashed check #322 for \$370, it did not apply that total amount of \$370 to the filing fee for the utility application. The Applicants intended check #322 of \$370 to pay for the utility application fee, which is why they made the amount of the check #322 for \$370, the exact amount of a small entity utility application fee. (See Affidavits of Applicants Exhibits 18 and 19).

A reimbursement check for \$165 of this \$370 was mailed to Applicants dated 4/20/2002 (check # 2040.63369905, Exhibit 13). Since the Applicants did not have an attorney, they did not question this reimbursement, and assumed the USPTO has acted correctly. (See Affidavits Applicants Exhibits 18 and 19). Instead, the USPTO had mistakenly reimbursed the Applicants for \$165. The UPTSO should have kept the total \$370 and applied it to this utility application.

Examiner Charles Nelson, in the first Official Action for the design application (Exhibit 3) advised the Applicants that they retain the advise of an attorney. Applicants retained Mary A. Whiting, Esq., a registered patent attorney 30,601 as their counsel for both applications. (Notice of Acceptance of Power of Attorney Exhibit 20).

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

The Applicants did not keep copies of what they filed with the Patent Office. Therefore, this Petition includes a good faith effort on the part of the Applicants to re-create the documentation that the Applicants originally filed. Since Applicants did not keep accurate copies of what they filed, the documents submitted with this Petition were obtained by their counsel, Mary A. Whiting, Esq., requesting them from Examiner Nelson who faxed Applicants' counsel the contents of his file on 8/18/2003 (See cover sheet Exhibit 11).

Mary A. Whiting, Esq., Applicants' counsel, has discussed this case-file in depth with Supervisor Examiner Delores Coles. In a detailed fax dated August 13, 2003, (Exhibit 14), Applicant explained the history of this application to Examiner Coles and requested correction. (See Affidavit of Applicants' counsel Mary A. Whiting, Esq., Exhibit 12). Supervisor Examiner Coles has assured Applicants' counsel, Mary A. Whiting, Esq., that the USPTO would correct any mistakes that were made on behalf of the UPTO in order for Applicants to keep their original filing date. Ms. Whiting also assured Examiner Coles that she would correct the mistakes that her clients, the Applicants, had made.

In order to ensure that the utility application is maintained as a utility application and to maintain the original filing date, Supervising Examiner Delores Coles sent application 29/154,901 to the correction unit, where it was given the new correct utility application number 10/666,934 and maintained the original filing date of Jan. 30, 2002. Applicant received the Notice of Newly Assigned Application number dated 9/26/2003, confirming this correction. (See Exhibit 15).

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

Then on 10/23/2003, a Withdrawal of Previously Sent Notice was mailed to Applicants. (Exhibit 16), along with a Notice of Incomplete Application (Exhibit 17). Applicants' counsel contacted Examiner Joyce Reilly and requested from Examiner Joyce Reilly the contents of the file for application 10/666,964. However Examiner Joyce Reilly has informed Applicants' counsel that file for 10/666,964 is in the process of being scanned and she is unable to fax Applicants any further documents (such as the original oaths), in order for them to submit them as Exhibits to this Petition. Ms. Reilly also informed Applicant's counsel that this Petition should be mailed in a timely manner with whatever documentation the Applicants have presently in their possession. (See Affidavit of Applicant's counsel Exhibit 12).

Although this Petition procedure was never discussed between Applicant's counsel and Supervising Examiner Dolores Coles, Applicant's counsel submits the instant Petition and respectfully requests that the 1/30/2002 filing date be reinstated.

The following is an outline of the history of this unusual case that sets forth the facts in chronological order.

Date	Fact
1/30/2002	Applicants original application received in the USPTO. 1/30/2002 is the original filing date of application intended to be a utility application. (See Exhibits 4-9 which show all the documents originally submitted).
2/06/2002	Applicants check #321 for \$165 and check #322 for \$370 cashed by the USPTO. (Exhibit 4).
2/27/2002	Filing Receipt is mailed to Applicants, (Exhibit 10).

Application: 10/666,964

Applicants: Robert R. Pederson and James C. Cicconi, Sr.

Title: Bob's Border Helper

Petition to the Commissioner

- 4/02/2002 Check No. 2049-63369905 reimbursed \$165 from the \$370 check.
(Exhibit 13).
- 7/31/2003 First Official Action for Design Application 29/155,798 mailed to Applicants. Examiner Charles Nelson is assigned to the design application. In this Official Action, Applicants were advised to seek counsel's "value of assistance." (Exhibit 3).
- 8/11/2003 Applicants retained counsel in order to submit amendment for design application and to fix the utility application's paperwork. (See Exhibit 14 with attached Power of Attorney dated 8/13/2003).
- 8/11/2003 Applicant's counsel discussed this case with Supervising Examiner Dolores Coles, in order to ensure that the application #29/154,901 application would be correctly be assigned a utility application number with the 1/30/2002 filing date. (See counsel's affidavit Exhibit 12).
- 8/13/2003 Applicants' counsel sent fax to Supervising Examiner Delores Coles explaining that Applicants wanted one of the applications to be a utility application. Also included was the power of attorney forms for both applications. (See Applicant's counsel's Affidavit Exhibit 12 and Exhibit 14).
- 8/18/2003 Applicant's counsel received fax from Examiner Nelson with the contents of the file (since Applicants did not keep complete copies of what they submitted to the USPTO). (See Applicants' counsel's Affidavit Exhibit 12 and Exhibit 11).

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

- 8/26/2003 Notice of Acceptance of Power of Attorney received by Applicants.
(Exhibit 20).
- 9/26/2003 Received NOTICE OF NEWLY ASSIGNED APPLICATION NUMBER;
assigning Application No. 10/666934 and Filing Date of 1/30/2002 to this
Utility Application (previous Design Application 29/154901). (Exhibit 15)
- 10/14/2003 Applicants signed new power of attorneys for new application number
10/666,934 and faxed to Examiner Reilly. (Exhibit 24).
- 10/23/2003 Received Withdrawal of Previously Sent Notice, stating that the Notice
Sent on 2/27/2002 was mailed in error. (Exhibit 16)
- 10/23/2003 Received the Notice of Incomplete Nonprovisional Application from
USPTO, (Exhibit 17). Applicants responded by filing this Petition.
- 11/17/2003 Applicants' counsel discussed Case with Examiner Joyce Reilly.
Applicants' counsel requested copy of the contents of the file, since
Applicants did not keep records of what they had submitted. Applicants'
counsel was advised by Examiner Reilly to submit the Petition with
whatever documents the Applicants have in their possession. (See
Applicants' counsel's Affidavit Exhibit 12).
- 12/17/2003 Applicants' counsel filed the response to the Notice of Incomplete
Nonprovisional Application to the Missing Parts Unit, along with check
#1804 for \$220 (Exhibit 21), new specification and claims, (Exhibit 1),
new drawings (Exhibit 2), power of attorney (Exhibit 24), and declaration
(Exhibit 23) to Mail Stop Missing Parts via Express Mail on 12/17/2003.

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

12/17/2003 Filed this Petition, along with check #1803 for \$130.

Therefore, Applicants respectfully request that since the original application was complete, it contained a specification, drawings, claim, check to cover the small entity fee for a utility application, it was complete and should be entitled to the 1/30/2002 original filing date.

2. POINTS TO BE REVIEWED.

A. The Original File Was Complete And Should Be Given The Original Filing Date.

Exhibits 4-9 prove that the Applicants' original application was complete. It contained, a specification with claims, drawings, check #322 with sufficient fee of \$370 to cover the small entity of a utility application, an oath, and a return postcard. Since the Applicants application was complete, it should be given the 1/30/2002 date.

B. Applicants Submit Corrected Specifications, Claims And Drawings, And New Oath.

1. Specification and Claims. Although the original application contained a specification, since this specification was written without the aid of counsel, Applicants resubmit a revised specification in proper format along with new drawings (Exhibit 1 and 2). The specification that was originally submitted on January 30, 2002 explained the invention and the figures, and was signed by the inventors. However, Applicants mistakenly used design language, when they meant utility application. The revised submitted specification and new corrected claims filed with the Missing Parts Unit (copy

Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

attached as Exhibit 1), correct this. A copy of original specification and claims are attached as Exhibit 5.

2. **Drawings.** The original application contained figures showing all the views of the invention, its extensions and the invention's cap portion (top, bottom, back, sides, top side, bottom side) FIGS. II (i, ii, iii), FIG. III (i), FIG. IV (a), FIG. V (a), and top side view, bottom side view, and bottom and top view, (Exhibit 7). However, since Applicants were not represented by counsel, these drawings were not in correct format. Applicants filed new corrected drawings with the Missing Parts Unit (a copy attached to this Petition as Exhibit 2).

3. **Oath.** The original application was filed with an oath. Applicants did not keep a copy. However, a new oath dated 10/14/2003 and signed by the applicants was faxed to the Patent Office (Examiner Joyce Reilly). (Exhibit 24), and a new supplemental declaration dated 12/01/2003 was also submitted to the Missing Parts Unit (Exhibit 23).

4. **Filing Fee.** A copy of the original filing fee check # 322 for \$370 is attached as Exhibit 4. The UPSTO mistakenly reimbursed Applicants the amount of \$165 on 4-02-02 (Exhibit 13). The USPTO was correct in cashing check #322 for \$370 for the original intention of Applicant's filing a utility application. The reimbursement was an error on the part of the USPTO.

5. **Postcard.** A Postcard is submitted with this Petition. The original application also had a postcard (Exhibit 9).

Application: 10/666,964
Applicants: Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper
Petition to the Commissioner

6. **Petition Fee.** Applicants submit check #1803 for \$130 for the Petition fee.

2. **PETITION IS ACCOMPANIED BY \$130 FEE.**

Enclosed is check # 1803 for the \$130 Petition fee. Since the Applicants request that the filing date be reinstated, Applicants request reimbursement of this amount.

3. **PETITIONERS ALSO FILED THE REQUIRED \$220 PER THE NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION.**

Applicants submitted check # 1804 for \$220 to "complete the basic filing fee for a small entity" as required by the Notice of Incomplete Nonprovisonal Application. A copy of this check (Exhibit 21) and cover letter (Exhibit 22) is included in this Petition. This was mailed to Mail Stop Missing Parts, Commissioner of Patents, P.O. Box 1450, Alexandria, Va 22313-1450 on 12/19/2003. Applicants also request reimbursement of this amount, as Applicants do not feel this is the correct amount.

4. **CONCLUSION.**

Whereby, Applicants respectfully request that the original filing date of 1/30/2002 be reinstated for this application, and that the corrected specification, claims, and drawings, and total application fees of \$370 be accepted and move this application on to allowance and registration.

Patent Application of Robert R. Pederson and James C. Cicconi, Sr.

For

Method and Device for Wallpaper Border Application

Background - Field of Invention

Field of Invention

The present invention relates to a method and device for applying wallpaper borders to a flat receiving surface, such as walls or ceilings, which device can be attached to the receiving surface hands free to aid the user by eliminating the need for a second user or additional equipment to hold the wallpaper border in place and not damage the wall or ceiling while the user changes its position, or performs other functions.

Background - Description of the Prior Art

There are several prior art devices disclose various tools for applying wallpaper borders, which include:

<u>Inventor</u>	<u>Patent Number</u>	<u>Date</u>
Johnson	US 6,173,749B	Jan. 16, 2001
Zane	US 5,775,633	Jul 7, 1998
Edney et. al.	US 5,573,630	Nov. 12, 1996
Vester	US 5,478,432	Dec. 26, 1995
Mazzola et. al.	US 5,453,152	Sep. 26, 1995
Aranjo et al	US 5,403,430	Apr. 4, 1995
Burch	US 5,403,432	Apr. 4, 1995
Campagna	US 5,328,543	July 12, 1994

Prior art devices with anchoring devices as disclosed in Zane U.S. Pat. No. 5,77,633, and Burch, U.S. Pat. No. 5,403,432, created holes that damaged the wall or the border, which necessitate repair. Other prior art devices utilizing long poles as handles, such as Campagna US Pat. No. 5,328,543 and Johnson US Pat No. 6,713,749B, can not be utilized for ceiling application. Neither can prior art devices utilizing trays, such as Johnson US Pat. No. 6,713,749B, Arango et. al. US Pat. No. 5,403,430, and Mazzola et. al. US Pat. No. 5,453,152, be utilized for ceiling application. Prior art devices also employ a cup shaped containers with slots through which the wallpaper border is applied to a wall, such as Edney et. al., US 5,573,630, Campagna US Pat. No. 5,328,543, and Vester, US Pat. No. 5,478,432, which can not be anchored to the wall or ceiling for hands free employment and which need the aid of an additional user.

Objects and Advantages

Accordingly, besides the distinctions from the prior art stated above, several objects and advantages of the present invention are:

To provide for a device wherein the apparatus is contained in one easily transportable unit;

To provide for a device wherein the need for numerous sized devices is eliminated as the device can be used for any width or standard length of wallpaper border;

To provide for a device, wherein the wallpaper border can be applied vertically, as well as horizontally to walls or ceilings;

To provide for a device that can be anchored to walls or ceilings for hands free application of wallpaper borders;

To provide for a device preferably made of plastic, wherein the device is easily cleaned;

To provide for a device preferably made of plastic, wherein the device is relatively inexpensive to manufacture;

To provide for a device preferably made of plastic, wherein the device is transparent or made of plastic mesh, so the user can see when the wallpaper border role is near its end, and ready for a refill without having to stop application and look into the device;

To provide for a device preferably made of plastic, wherein the device is waterproof so as not to degrade under the wet conditions, and

Applicant Robert R. Pederson
Title: Bob's Border Helper
Filing date: 1/30/2002
Serial No.: 10/666,934

4

To provide for a device preferably made of plastic, wherein the device is durable,
not easily broken or fractured, and therefore safe.

Brief Description of the Drawings

FIG. 1. is a perspective side view of the present invention showing the wallpaper border being pulled through the cup length longitudinal slot while being applied to the receiving surface (wall). The wallpaper border and user's hand are shown by dotted line for illustrative purposes only, since they are not part of the invention.

FIG. 2. is a perspective frontal view of the present invention, showing a capped cylindrical cup portion with the cap's notch portion aligned with the longitudinal slot.

FIG. 2a is a detailed expanded view showing the handle portion threadedly attached to the cylindrical cup portion's circular planar bottom surface.

FIG. 2b is a cross-sectional view along line a-a' showing the male threaded bolt of the handle portion threaded though the female threaded bore of the cylindrical cup portion's bottom circular planar surface.

FIG. 2c is a cross-sectional view along line b-b' showing the notched cap.

FIG. 3. is a perspective side view of the present invention, showing the cylindrical cup portion anchored to the wall by the dual sided push pin.

FIG. 3a is a perspective view showing the cylindrical cup portion (fragmented view), anchored to the wall by the dual sided push pin.

FIG. 3b is a cross-sectional view of the receiving surface (wall), showing the device (fragmented view) anchored to the wall.

FIG. 4 is a planar bottom view of the present invention, showing the handle portion in relation to the circular planar surface of the cylindrical cup portion's bottom.

20. Circular bottom edge of cylindrical cup portion

21. Plurality of Pin holes

Summary of the Invention

This invention relates generally to a device for applying wallpaper borders of different widths and lengths using the same tool, whereby the user can anchor the device to a flat receiving surface (either a wall or ceiling), in order to have hands free movement to position ladders, mix glue or perform other functions, while applying the wallpaper border. The device is comprised of a cylindrical cup portion with a cup length longitudinal slot open at it top end, through which the wallpaper border is pulled through, and plurality of slits cut into the surface of the cylindrical cup portion for water access, and a handle portion.

The tool is preferably comprised of transparent solid plastic or plastic mesh material, in order to make the end of the wallpaper border roll visible to the user, so that the user does not have to stop and look inside the device to determine if the wallpaper border needs to be changed or is coming to an end. Plastic is preferable since it is safe, won't fracture, is easily cleaned and holds it shape when wet. A water resistant page of instructions is also included with the device.

Prior art devices disclose tools and kits for applying wallpaper or wallpaper borders. These devices are differentiated from the present invention, in that the prior art devices do not use pins or anchors that do not damage the wall or wallpaper. Using the present invention, any hole in the wall or ceiling (receiving surface), is covered by the wallpaper border, so no extra steps are needed to repair left behind holes in the receiving surface.

The preferred embodiment of the invention is comprised of molded plastic, with a cylindrical cup portion that can accommodate different sized widths and lengths of

standard wallpaper borders. The standard range of a wallpaper border width is between 4 to 12 inches, and range of length is between 6 to 12 feet. The longitudinal slot is of a preferred range from 4-12 inches long, which accommodates the wallpaper border's width. The longitudinal slot is sufficiently wide enough (1/4 inch) for the wallpaper border to be easily unrolled and pulled through, so as to be applied to the wall or ceiling. Prior art devices do not accommodate such a wide range of widths and lengths.

An alternative embodiment of the invention have handles of varying lengths to accommodate the user's height requirements. This may be a range from 6 inches to 2 feet in length. In the preferred embodiment of the invention, the handle threadedly attaches to the base of the cylindrical cup portion by a centrally positioned threaded male bolt on the handle's top which screws into a centrally positioned threaded female bore on the cylindrical cup portion's base. Alternatively, the male bolt of the handle could be friction fit into the female bore of the cup portion's base.

The device is simple to use and applies the wallpaper border in a straight line, either vertically or horizontally, with clean edges and without air-bubbles. Therefore, professionals as well as laypersons will benefit from its use.

A plurality of side slits symmetrically cut through the cylindrical cup portion's surface allow for water to seep into the device to evenly wet the dry glued back of the wallpaper border in order to create paste. These side slits can either be longitudinally or concentrically located on the cylindrical cup portion's surface.

A notched rimmed cap can be securely friction fit to the top circular edge of the cylindrical cup portion in order to hold the wallpaper border in the device during the wetting and application process. A notch on the rim aligns with the open edge of the

longitudinal slot, so when the cap is attached to the device, the wallpaper border's edge won't scrape against the cap's rim and be damaged during application

In the preferable embodiment of the invention, the device is anchored to the receiving surface by a dual sided push pin. Conventional pin devices can also be used. An upwardly slanting needle anchors the device to the outwardly facing surface of the dual sided push pin. A downwardly slanting needle attaches the inwardly facing surface of the dual sided push pin to the receiving surface. When the device is made of plastic mesh material, the upwardly slanting needle can be pushed through the pin holes or the mesh material to anchor the device to the receiving surface. Using the method of the present invention, the hole created by the push pin in the receiving surface, is covered with the wallpaper border, leaving no detectable holes in the wall or the ceiling that would be unsightly and need repair.

Description of the Preferred Embodiment of the Invention

Referring to the drawings by numerals of reference, this invention relates generally to a device comprising a molded body comprising a cylindrical cup portion with a plurality of side slits and pin holes are cut into the cylindrical cup portion's surface, as well as a body length longitudinal slot open at one end, and a handle portion for applying wallpaper borders. A cap with a notched rim can also be attached to the device.

FIG. 1, illustrates a user **1** with the device **2** aligned parallel to the receiving surface **15**, (which can either be a wall or a ceiling), so that the wallpaper border **5**, which is rolled inside the device **2**, can be unrolled through the longitudinal slot **6**, and applied to the receiving surface **15**. The longitudinal slot **6** is preferably 1/4 inch wide. The device **2** can be used to apply wallpaper border **5** of varying widths and lengths, by matching the length of the cylindrical cup portion **4** to the width of the wallpaper border **5**.

As shown in **FIG. 1**, the top edge **11** of the cylindrical cup portion **4** is placed into the linear edge **17**, formed by the horizontal and vertical receiving surfaces intersect (where the wall meets the ceiling), in order for the wallpaper border **5** to be applied aligned with the straight line formed by the meeting of the planar ceiling and wall surfaces. The device **2** can also be aligned to apply the wallpaper border **5** any distance from this linear edge **17**, on the wall or on the ceiling.

Shown in **FIG. 1**, **FIG. 2** and **FIG. 3**, a plurality of side slits **7** cut into the cylindrical cup portion's **4** surface, allow water to soak evenly into the cylindrical cup portion **4** and onto the roll of wallpaper border **5**, in order to create a paste on the back of

the wallpaper boarder 5. When the device 2 is made of plastic mesh material, water soaks evenly through to the wallpaper border 5.

As shown in **FIGS. 1** and **3**, once the user 1 has drawn the wallpaper border 5 to maximum arm's length, push pin's 18 upwardly slanting needle 18a, is stuck through one of the plurality of pin holes 21 aligned closest to the receiving surface 15, and the downwardly slanting needle 18b is anchored to the receiving surface 15, to attach the device 2 to the receiving surface 15. Once the device 2 is so anchored to the receiving surface 15, the user 1 has hands free movement in order to realign its ladder, move further along the wall or ceiling, and start the process over again to continue applying the wallpaper border 5 to the receiving surface 15.

The device 2 is preferably made of transparent solid plastic or plastic mesh material in order for the user 1 to see through the device to determine is the wallpaper border 5 is nearing an end. This allows for the user 1 to determine when the roll of wallpaper border 5 will need to be changed without having to stop the process and look into the device. This saves significant time and energy.

As shown in **FIG. 1**, **FIG. 2** and **FIG. 3**, the preferred embodiment of the device 2 is a single piece of molded plastic, comprising a cylindrical cup portion 4, and a handle portion 3.

As shown in detail in **FIG. 2a**, the device can also be comprised of a removable handle portion 3 with a centrally located threaded male bolt 8 at its flattened top end 19, which screws into a centrally located threaded female bore 9 in the bottom surface 10 of cylindrical cup portion 4. Handle portions 3 can be of various lengths to accommodate the user's 1 needs.

FIG. 4 shows the central location of the handle portion's 3 attachment to the bottom surface 10 of the cylindrical cup portion 4, with circular edge 20.

FIG. 2b shows the cross-sectional view along line a-a' of the handle portion 3 threadedly attached to the bottom surface 10 of the cylindrical cup portion 3.

As shown in **FIG. 2**, a flat circular cap portion 12 with a rim 13 can be friction fit over the outside surface of the cylindrical cup portion's 4 top circular edge 11. The rim 13 has a notch 14 which aligns with the open edge of the single longitudinal slot 6 of the cylindrical cup portion 4, to stop the edge 16 of the wallpaper border 5 from scraping against the rim 13 and tearing during use. **FIG. 2c** shows a cross-sectional view along line b-b', showing the notch 14 in the rim portion 13 of the cap 12.

Claims

I Claim:

1. A device for applying wallpaper border with a glued back and an unglued front to a receiving surface, comprising a: cylindrical cup portion with a circular top edge, and a circular bottom planar surface with a circular bottom edge, and a handle portion,

said cylindrical cup portion further comprising a longitudinal slot open at said circular top edge and closed at said circular bottom edge, a plurality of side slits symmetrically aligned along said cylindrical cup portion, and a plurality of pin holes symmetrically aligned adjacent to said circular top edge of said cylindrical cup portion,

wherein, said wallpaper border is placed into said device with said glued back portion facing said receiving surface, and while simultaneously holding said handle portion, said user submerses said device in water to wet said glued back, and then aligns said device along a desired horizontal and vertical measurement of said receiving surface and swipes said device along a desired length of said receiving surface, thereby pulling said wallpaper border through said longitudinal slot of said cylindrical cup portion, and simultaneously adhering said glued back of said wallpaper border to said receiving surface, and further, anchoring said device to said receiving surface by conventional anchoring means, for hands free movement during application of said wallpaper border until all said wallpaper border is spent.

2. Device according to **Claim 1**, wherein said cylindrical cup portion further comprises a flat circular cap portion with a rim portion, further comprising a notch, wherein said notched rim portion is aligned with said open end of said longitudinal slot, when said flat circular cap portion is friction fitted over said circular top edge of said

cylindrical cup portion, in order to secure said wallpaper border into said device during wetting and to pull said wallpaper border freely through said longitudinal slot to avoid rubbing and tearing said wallpaper border on said rim portion.

3. **Device according to Claim 1**, wherein said plurality of side slits are aligned longitudinally along said cylindrical cup portion.

4. **Device, according to Claim 1**, wherein said plurality of side slits are aligned concentrically around said cylindrical cup portion.

5. **Device, according to Claim 1**, wherein said device is comprised of a one solid molded piece of waterproof plastic material, to enhance strength and durability.

6. **Device, according to Claim 1**, wherein said device is comprised of transparent waterproof plastic material, which enhances the viewing of the position of said wallpaper border inside said device in order to observe when said wallpaper border is nearing its end and needs to be replaced.

7. **Device, according to Claim 1**, wherein said device is comprised of plastic mesh material, which enhances the viewing of the position of said wallpaper border inside said device in order to observe when said wallpaper border is nearing its end and needs to be replaced, which increases the sufficiently of water flow through said device to enhance the wetting of said wallpaper border, and wherein said anchoring means is attached to said device through openings in said mesh material.

8. **Device, according to Claim 1**, wherein said anchoring means is attached to said device through one of a plurality of pin holes symmetrically aligned adjacent to said top edge of said cylindrical cup portion.

9. Device, according to Claim 1, wherein said handle portion of said device further comprises a flat circular planar top portion with a centrally located threaded male bolt means which threadedly attaches to a centrally located threaded female bore means on said circular bottom planar surface of said cylindrical cup portion.

10. A method for applying wallpaper border with a glued back and an unglued front to a receiving surface, comprising a: cylindrical cup portion with a circular top edge, and a circular bottom planar surface with a circular bottom edge, and a handle portion,

said cylindrical cup portion further comprising a longitudinal slot open at said circular top edge and closed at said circular bottom edge, a plurality of side slits symmetrically aligned along said cylindrical cup portion,

wherein, said wallpaper border is adhered to said receiving surface by use of a method comprising the following steps:

- a) while simultaneously holding said handle portion, placing a roll of said wallpaper border into said device with said glued back facing said receiving surface;
- b) submersing said device in water in order for water to seep through said plurality of side slits, said longitudinal slots, to wet said glued back;
- c) aligning said device along a desired horizontal and vertical measurement of said receiving surface
- d) swiping said device along a desired length of said receiving surface, thereby pulling said wallpaper border through said longitudinal slot of said cylindrical

cup portion; in order to adhere said glued back of said wallpaper border to said receiving surface;

- e) simultaneously anchoring said device to said receiving surface by conventional anchoring means, for hands free movement during application of said wallpaper border, until all said wallpaper border is spent.

11. Method according to Claim 10, wherein said cylindrical cup portion further comprises a circular shaped cap portion with a rim, said rim further comprising a notch portion, wherein said notched portion is aligned with said open end of said longitudinal slot, when rim portion of said flat circular cap portion is friction fitted over said circular top edge of said cylindrical cup portion, in order to secure said wallpaper border into said device during wetting and to pull said wallpaper border freely through said longitudinal slot to avoid rubbing and tearing said wallpaper border on said rim portion.

12. Method according to Claim 10, wherein said plurality of side slits are aligned longitudinally along said cylindrical cup portion.

13. Method, according to Claim 10, wherein said plurality of side slits are aligned concentrically around said cylindrical cup portion.

14. Method, according to Claim 10, wherein said device is comprised of a one solid molded piece of waterproof plastic material, to enhance strength and durability.

15. Method, according to Claim 10, wherein said device is comprised of transparent waterproof plastic material, which enhances the viewing of the position of said wallpaper border inside said device in order to observe when said wallpaper border is nearing its end and needs to be replaced.

16. Method, according to Claim 10, wherein said device is comprised of plastic mesh material, which enhances the viewing of the position of said wallpaper border inside said device in order to observe when said wallpaper border is nearing its end and needs to be replaced, which increases the sufficiently of water flow through said device to enhance the wetting of said wallpaper border, and wherein said anchoring means is attached to said device through openings in said mesh material.

17. Method, according to Claim 10, wherein said anchoring means is attached to said device through one of a plurality of pin holes symmetrically aligned adjacent to said top edge of said cylindrical cup portion.

18. Method, according to Claim 10, wherein said handle portion of said device further comprises a flat circular planar top portion with a centrally located threaded male bolt means which threadedly attaches to a centrally located threaded female bore means on said circular bottom planar surface of said cylindrical cup portion.

ABSTRACT

A device for applying wallpaper borders to walls and ceilings, which is anchored in place by conventional pin means pushed through holes in the surface of the device, for hands free maneuverability. The device is preferably composed of plastic which is waterproof, easily cleaned, safe, and durable. The device is either transparent or made of mesh material, so the user can see when the wallpaper border is nearing its end without having to stop the application process. Handles of varying lengths adjust to wall and ceiling measurements, while the device's cup's length can vary to adjust to different widths of wallpaper border. A cap with a notched rim can also be fitted on the device to secure the wallpaper border inside the device. The device is easy enough for a novice to use and also creates an error free finish suitable for professional use.

Value of Assistance

It would appear from an examination of this application that you are unfamiliar with some aspects of design patent prosecuting procedure and/or drafting technique. While an inventor may prosecute the application or execute the drawings, lack of skill in either field usually acts as a liability in obtaining the maximum patent protection. After reviewing this Office action you may want to consider securing the services of a registered patent attorney or patent agent to prosecute the application, and/or an experienced patent draftsman to execute suitable drawings, since the marketplace value of a design patent greatly depends on skillful preparation and prosecution. A registered patent attorney is an attorney who has been certified by the Patent and Trademark Office as qualified to represent applicants before the Office. A registered agent has also been certified by the Office, but is not an attorney. A draftsman should have specific (preferably design) patent experience, rather than a basic skill in mechanical drawing. The Office cannot aid in selecting an attorney, agent or draftsman. However, the following publications are available: *Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office* (from which a copy of the page listing attorneys and agents nearest you has been attached) and *Guide for the Preparation of Patent Drawings*. These publications are for sale by the Superintendent of Documents, US Government Printing Office, Washington, DC 20402. Moreover, patent draftsmen can generally be contacted through the telephone book

BOB'S BORDER HELPER

We, **ROBERT R. PEDERSON**, and **JAMES C. CICCONI, SR.**,

have invented a new design, BOB'S BORDER HELPER, as set forth in the following specifications:

FIG. I is a view of the handle that is attached to either cylinder.

FIG II is a front view of the cap and cylinder to be used with wider borders.

FIG II(i) is a back view thereof.

FIG II(ii) is a top view of both types of caps and cylinders.

FIG II(iii) is a bottom view of both types of caps and cylinders.

FIG III is a front view of the cap and cylinder to be used with regular-size borders.

FIG IV is a front view of the cylinder extension to be used with wider borders.

FIG IV(a) is a back view thereof.

FIG V is a front view of the cylinder extension to be used with regular-sized borders.

FIG V(a) is a back view thereof.

We claim: The ornamental design for a BOB'S BORDER HELPER as shown.

DESIGN V. UTILITY: A "design patent" protects an article's ornamental appearance (e.g., the way an article looks) (35 U.S.C. 171), while a "utility patent" protects the way an article is used and works (35 U.S.C. 101). The ornamental appearance of an article includes its shape/configuration or surface ornamentation upon the article, or both. Both a design and a utility patent may be obtained on an article if invention resides both in its ornamental appearance and its utility. For more information see MPEP 1502.01.

Re: 29/155,798 and 29/154,901

COPIES OF DRAWING & SPECIFICATION

FROM: T. CHASE NELSON

28 AUGUST 2003

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application No.:10/666,934

Inventors: ROBERT R. PEDERSON AND JAMES C. CICCONI, SR.

Filing Date: 1/30/2002

Title: BOB'S BORDER HELPER

STATE OF NEW YORK)

COUNTY OF RICHMOND)

Hon. Commissioner of Patents

Washington, D.C.

I, Mary A. Whiting, Esq., attorney for the Applicants, declares as follows:

1. I am the attorney for the Applicants and co-inventors Robert R. Pederson and James C. Cicconi, Sr., of the invention "Bob's Border Helper."
2. I reside at 214 Slosson Avenue, Staten Island, New York 10314.
3. I am registered to practice before the United States Patent and Trademark Office, since 1981, registration number 30,601.
4. I have read the "Withdrawal of Previously Sent Notice" and "Notice of Incomplete Nonprovisonal Application" mailed 10/23/2003.
5. After discussion with my clients concerning their intent, in my opinion, the co-inventors intended the original application #29/154,901, to be a utility application, which was correctly reassigned number 10/666,934, and that it was complete and should be entitled to the 1/30/2002 filing date.

Declaration of Counsel Mary A. Whiting
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

6. The figures for both applications were hand drawn by the Applicants. They did not use a patent draftsman. One set was intended for the design application, the other set for the utility application.
7. New formal corrected drawings are submitted. These are drawn by a patent draftsman.
8. The applicants Robert R. Pederson and James C. Cicconi, Sr., have retained me to represent them before the USPTO in prosecution of both applications.
9. I spoke to Supervising Examiner Delores Coles on several occasions in August 2003 regarding correction of the applications. I faxed Examiner Coles a detailed letter explaining everything on August 13, 2003.
10. Supervising Examiner Coles told me that the application numbered 29/154,901 would be sent to the correction unit in order to receive a utility application number and maintain the 1/30/2002 original filing date.
11. Examiner Coles also explained to me that application number 29/155,978 would remain in the design art unit since Examiner Nelson had already been assigned this application, and it was originally intended to be a design application.
12. On August 18, 2003, Examiner Nelson faxed me some of the contents of both files that he had in his possession. The complete contents of the 29/154,901 was sent to the corrections unit. He kept the contents of the 29/155,978 application file since he was the Examiner assigned to that application.
13. The "Notice of Acceptance of Power of Attorney" for both applications was mailed 8/26/2003.

Declaration of Counsel Mary A. Whiting
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

14. "Notice of Newly Assigned Application Number" dated 9/26/2003, assigned application number 10/666,934 to the intended utility application that was incorrectly numbered 29/154,901.
15. On 10/6/2003, on behalf of my clients, I filed an amendment to correct intended design application 29/155,798, with substitute specification, substitute claims, oath, and new informal drawings. Since the original application did contain a fee, specification, claim, oath and drawings, it was complete, although incorrect. The amendment corrects these incorrect elements.
16. On 10/23/2003 a "Notice of Incomplete Nonprovisional Application" and "Withdrawal of Previously Sent Notice" for utility application 10/666,934 was mailed.
17. I am filing this Petition, on behalf of my clients, in order for the intended utility application 10/666,934 to maintain its original filing date of 1/30/2002. The original intended utility application was complete, since it contained, a check for \$370 for the utility small entity fee, specification, claim, oath, and drawings.
18. I am also filing, on behalf of my clients, a substitute specification, substitute claims, oath, and new formal drawings to correct the errors in the original complete application filed 1/30/2002.
19. Also submitted is check # ~~1604~~ for \$220, as requested by the USPTO. If the original \$370 had not been split apart by the UPSTO, and \$165 had not been refunded, the original filing fee of \$370 would have been paid in full with check #322 for \$370 on the original application filing date of 1/30/2002.

Declaration of Counsel Mary A. Whiting
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

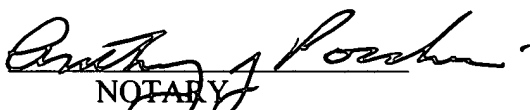

20. The requested amount of \$200 appears in error. However, since the USPTO requested it, I advise my clients to pay it. Any monies owed after this matter is corrected should be refunded to my clients.
21. Also submitted is check # 1503 for \$130 for the Petition fee.
22. A newly executed oath or declaration is also submitted.
23. Substitute specification, claims, oath, and new formal drawings are also submitted.

I hereby declare, that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are so punishable by fine, imprisonment or both, under section 1001 Title 18 of the United States Code, and that such false statements may jeopardize the validity of the application and any patent issuing thereon, or any patent to which this verified statement is directed.

Dear Examiner Coles: As discussed on Monday August 11, 2003. I would appreciate your help on this. If you need to reach me, please contact me on my cell phone 1- 646- 942 -7554.

Enclosed: Powers of Attorneys signed by Robert R. Pederson Sr. and James C. Cicconi for Applications 29/155,798 and 29/154,901. Also, copies of cancelled checks for \$165 (for design application) and \$370 (for utility application).

I met with my clients this morning and they told me that they also spoke to Alan Douglas last week and he said he would help straighten this out. Wanted you to know this so that both you and Examiner Douglas aren't working on this simultaneously.

Very truly yours,
Mary A. Whiting

RE: Serial Numbers: 29/154,901 filing date 1/30/2002
Serial Number 29/155,798 filing date 1/29/2002
Inventors Robert R. Pederson and James C. Cicconi, Sr.
Title: Bob's Border Helper

Dear Examiner Coles:

Pursuant to our discussion on Monday August 11, 2003, I submit executed powers of attorney forms in order to have you fax me copies of what my clients had mailed to the patent office for both applications. The applicants submitted both applications *pro se*, without the aid of a registered patent attorney, and they did not keep copies of what they had submitted to the patent office.

Design Application 29/155,798

They have retained me as their attorney. They want design application 29/155,798 to go forward. I will file an amendment in response to the Examiner's T. Charles Nelson's Office Action, and submit new drawings in order to have this application go forward as a design application. Check #321 for \$165 was for one design application. I also enclose a copy of the front and back of this cancelled check

Utility Application

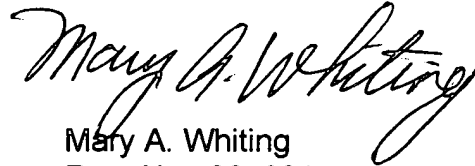

Regarding application 29/ 154901, the applicants meant this to be a utility application. That is why check #322 was for \$370. I enclose a copy of front and back of this check. As we discussed, I plan on correcting the paperwork regarding this, with the USPTO's help, to conform to a utility application. My clients need to keep their filing date of 1/30/2002.

My clients informed me that they have also spoken to Examiner Alan Duglass regarding their applications. Mr. Duglass told them he would help them straighten it out. In order to get started, please send me copies of what the

☒ Total of 2 forms are submitted.

This collection of information is required by 37 CFR 1.31 and 1.33. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 3 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Newly Assigned Application No. 10/666934

Applicant: ROBERT R. PEDERSON; JAMES C. CICCONI SR

Title: BOB'S BORDER HELPER

Filing Date: 01/30/02

NOTICE OF NEWLY ASSIGNED APPLICATION NUMBER 10/666934

The above-identified patent application was previously assigned Application Number 29154901. The Examiner Interview Summary Record mailed _____, indicates that you intended to file a Utility Application and not a Design Application.

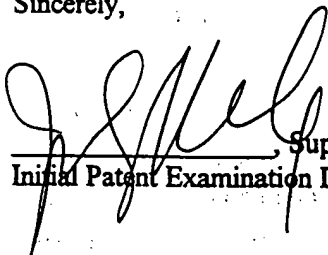

Accordingly, Application No. 29154901 has been inactivated and the application has been assigned the new application number identified above.

After the office reviews your application and verifies that all fees and obligations have been met, you will receive a filing receipt and notice. The new application number assigned to the application is listed in the heading of this letter.

Please correct your records and refer to the new application number in all future correspondence to the U. S. Patent and Trademark Office.

If you have any questions about this matter, please contact Customer Service, Initial Patent Examination Division, at (703) 308-1202.

Sincerely,

_____, Supervisor
Initial Patent Examination Division

Initial Patent Examination Division (703) 308-1202

PART 1 - ATTORNEY/APPLICANT COPY

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application No.:10/666,934

Inventors: ROBERT R. PEDERSON AND JAMES C. CICONI, SR.

Filing Date: 1/30/2002

Title: BOB'S BORDER HELPER

STATE OF NEW YORK)

COUNTY OF RICHMOND)

Hon. Commissioner of Patents

Washington, D.C.

I, Robert R. Pederson, declares as follows:

- 1. I am a co-inventor to invention "Bob's Border Helper" with James C. Cicconi, Sr.**
- 2. All references to "we" or "our" refer to myself and Mr. James C. Cicconi, Sr.**
- 3. I reside at 191 Wild Avenue, Staten Island, New York 10314.**
- 4. I have read the "Withdrawal of Previously Sent Notice" and "Notice of Incomplete Nonprovisonal Application" mailed 10/23/2003.**
- 5. In my opinion, as inventor, our application for the original intended utility application #29/154,901, (reassigned number 10/666,934), was complete and should be entitled to the 1/30/2002 filing date.**
- 6. On January 29, 2002, two applications, both entitled "Bob's Border Helper" to the United States Patent Office, (USPTO), were mailed by Express Mail.**
- 7. One application was intended to be a utility application, and one application to be a design application.**

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

8. Check # 322 for \$370 was intended to be applied to the utility application, and check #321 for \$165 was intended to be applied to the design application. (Copies of both checks are attached as Exhibit 1).
9. We did not use an attorney to prepare and file both our applications.
10. I drew figures for both applications. One set was intended for the design application, the other set for the utility application (Figures for the intended utility application are attached as Exhibit 2).
11. I mistakenly filled out form PTO/SB/18 (08-00) Design Patent Application Transmittal and submitted it with the intended utility application. It should have been the form for the utility application. (Copy attached as Exhibit 3).
12. With the intended utility application, we also submitted: fee transmittal form, specification with claim, drawings, executed oath or declaration, application data sheet, disclosure document deposit request form (in duplicate), and return postcard. I attach a copy of the original specification and claim (Exhibit 4). Although we intended a utility application, we mistakenly referred to it as a design.
13. I enclose a copy of the postcard, showing the 1/30/2002 filing date (Exhibit 5).
14. I did not keep photo static copies of what was filed with the USPTO.
15. The USPTO cashed both checks on 2/8/2002.
16. On 2/27/2002, a filing receipt was mailed, and since we did not have an attorney, I did not notice the errors in the filing receipt. I did not question why the full

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

- \$370 (check #322 for \$370 was cashed by the USPTO), was not applied to the utility application. I assumed the USPTO was correct.
17. No "Notice to File Missing Parts" was mailed at that time. Therefore I assumed everything was correct.
 18. When the \$165 was refunded from the USPTO, on 4/02/2002, I did not question why the full \$370 was not applied to the utility application, I assumed the USPTO was correct and cashed the refund check for \$165.
 19. When the first official action was mailed 7/31/2003, for application 29/155,978, this was the first time I had notice that there was a problem.
 20. My co-inventor spoke to Examiner Nelson on or about July 2003 or early August 2003; he said he didn't understand why he had two application numbers for the same invention, and referred us to Mr. Alan Duglass, Supervisor, Art Unit 2911, since Supervisor Delores Coles was on vacation. He said he was assigned the intended design application 29/155,978, and that we should discuss the other application number (29/154,901), with Mr. Duglass, since we intended that to be a utility application. Examiner Nelson said there obviously was some sort of error and that Mr. Duglass should be able to assist us getting it straightened out.
 21. Mr. Alan Duglass Supervisor for art unit 2911, at telephone # 703-305-3255 on or about July 2003 or early August 2003, advised that there was some error on the part of the USPTO, and apologized. He also said that he would look into the matter and straighten out the errors made by the USPTO, regarding not assigning a utility application number to the application that the \$370 was meant for.

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

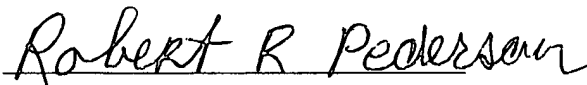

22. Since the first official action advised that counsel would be beneficial, we then contacted counsel, Mary A. Whiting, who we have retained as counsel to prosecute both applications with the USPTO.
23. The "Notice of Acceptance of Power of Attorney" for 29/154,901 was mailed 8/26/2003.
24. We received a "Notice of Newly Assigned Application Number" dated 9/26/2003, assigning number 10/666,934 to the intended utility application that was incorrectly numbered 29/154,901.
25. On 10/6/2003 we filed an amendment to correct intended design application 29/155,798, with substitute specification, substitute claims, and new informal drawings. Since the original application did contain a fee, specification, claim, oath and drawings, while it was complete, although incorrect. The amendment corrects these incorrect elements.
26. On 10/23/2003 a "Notice of Incomplete Nonprovisional Application" and "Withdrawal of Previously Sent Notice" for utility application 10/666,934 was mailed.
27. We are filing this Petition in order for the intended utility application 10/666,934 to maintain its original filing date of 1/30/2002. Our original intended utility application was complete, since it contained, a check for \$370 for the utility small entity fee, specification, claim, oath, and drawings.
28. We are filing a substitute specification, substitute claims, oath, and new formal drawings to correct the errors in the original complete application filed 1/30/2002.

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

29. We are submitting check # 1791 for \$220, as requested. However, if the original \$370 had not been split apart by the UPSTO, and \$165 had not been refunded, the original filing fee of \$370 would have been paid in full with check #322 on the original application filing date of 1/30/2002.
30. We think the \$220 amount is the wrong amount, but since it is requested by the USPTO, we are submitting it. We request all amounts due us after this matter is resolved to be refunded to us.
31. We also submit check # 1790 for \$130 for the Petition fee.

I hereby declare, that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are so punishable by fine, imprisonment or both, under section 1001 Title 18 of the United States Code, and that such false statements may jeopardize the validity of the application and any patent issuing thereon, or nay patent to which this verified statement is directed.

Term Expires February 28, 2006

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application No.:10/666,934

Inventors: ROBERT R. PEDERSON AND JAMES C. CICONI, SR.

Filing Date: 1/30/2002

Title: BOB'S BORDER HELPER

STATE OF NEW YORK)

COUNTY OF RICHMOND)

Hon. Commissioner of Patents

Washington, D.C.

I, James C. Cicconi, Sr., declares as follows:

1. I am a co-inventor to invention "Bob's Border Helper" with Robert R. Pederson.
2. All references to "we" or "our" refer to myself and Mr. Pederson.
3. I reside at 79 Bentley Avenue, Staten Island, New York 10307.
4. I have read the "Withdrawal of Previously Sent Notice" and "Notice of Incomplete Nonprovisonal Application" mailed 10/23/2003.
5. In my opinion, as inventor, our application for the original intended utility application #29/154,901, (reassigned number 10/666,934), was complete and should be entitled to the 1/30/2002 filing date.
6. On January 29, 2002, I witnessed my co-inventor, Robert R. Pederson, mail two applications, both entitled "Bob's Border Helper" to the United States Patent Office, (USPTO), by Express Mail.

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

7. One application was intended to be a utility application, and one intended to be a design application.
8. Check # 322 for \$370 was intended to be applied to the utility application, and check #321 for \$165 was intended to be applied to the design application. (Copies of both checks are attached as Exhibit 1).
9. We did not use an attorney to prepare and file both our applications.
10. I witnessed Mr. Pederson draw the figures for both applications. One set was intended for the design application, the other set for the utility application (Figures for the intended utility application are attached as Exhibit 2).
11. Mr. Pederson mistakenly filled out form PTO/SB/18 (08-00) Design Patent Application Transmittal and submitted it with the intended utility application. It should have been the form for the utility application. (Copy attached as Exhibit 3).
12. With the intended utility application, we also submitted: fee transmittal form, specification with claim, drawings, executed oath or declaration, application data sheet, disclosure document deposit request form (in duplicate), and return postcard. I attach a copy of the original specification and claim (Copies attached as Exhibit 4). Although we intended a utility application, we mistakenly referred to it as a design.
13. I enclose a copy of the postcard, showing the 1/30/2002 filing date (Exhibit 5).
14. I did not keep photo static copies of what was filed with the USPTO.
15. The USPTO cashed both checks on 2/8/2002.

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

16. On 2/27/2002, a filing receipt was mailed, and since we did not have an attorney, I did not notice the errors in the filing receipt. I did not question why the full \$370 (check #322 for \$370 was cashed by the USPTO), was not applied to the utility application. I assumed the USPTO was correct.
17. No "Notice to File Missing Parts" was mailed at that time. Therefore I assumed everything was correct.
18. When the \$165 was refunded from the USPTO, on 4/02/2002, I did not question why the full \$370 was not applied to the utility application, I assumed the USPTO was correct and cashed the refund check for \$165.
19. When the first official action was mailed 7/31/2003, for application 29/155,978, this was the first time I had notice that there was a problem.
20. I contacted the USPTO and discussed both applications with the USPTO representative Mr. Alan Duglass Supervisor for the Art Unit 2911, on or about late July or early August 2003, and he advised that he would speak to Examiner Charles Nelson and Supervisor Examiner Dolores Coles, and that the USPTO would correct the paperwork errors.
21. I spoke to Examiner Nelson on or about July 2003 or early August 2003; he said he didn't understand why he had two application numbers for the same invention, and referred us to Mr. Alan Duglass, Supervisor, Art Unit 2911, since Supervisor Delores Coles was on vacation. He said he was assigned the intended design application 29/155,978, and that we should discuss the other application number (29/154,901), with Mr. Duglass, since we intended that to be a utility application.

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

22. I also told Examiner Nelson that since I had mailed in two checks (one for design and one for utility patent), and that I didn't understand why I received a refund and two design patent numbers. Examiner Nelson said there obviously was some sort of error and referred me to Mr. Duglass who would be able to assist us getting it straightened out.
23. Mr. Alan Duglass Supervisor for art unit 2911, at telephone # 703-305-3255 on or about July 2003 or early August 2003, advised us that there was some error on the part of the USPTO, and apologized. He also said that he would look into the matter and straighten out the errors made by the USPTO, regarding not assigning a utility application number to the application that the \$370 was meant for.
24. Since the first official action from Examiner Nelson said that retaining counsel would be beneficial to us, we contacted counsel, Mary A. Whiting, who we have retained as counsel to prosecute both applications with the USPTO.
25. The "Notice of Acceptance of Power of Attorney" for 29/154,901 was mailed 8/26/2003.
26. We received a "Notice of Newly Assigned Application Number" dated 9/26/2003, assigning number 10/666,934 to the intended utility application that was incorrectly numbered 29/154,901.
27. On 10/6/2003 we filed an amendment to correct intended design application 29/155,798, with substitute specification, substitute claims, and new informal drawings. Since the original application did contain a fee, specification, claim,

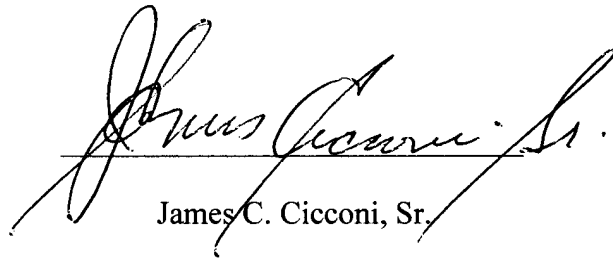

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

- oath and drawings, while it was complete, although incorrect. The amendment corrects these incorrect elements.
28. On 10/23/2003 a "Notice of Incomplete Nonprovisonal Application" and "Withdrawal of Previously Sent Notice" for utility application 10/666,934 was mailed.
29. We are filing this Petition in order for the intended utility application 10/666,934 to maintain its original filing date of 1/30/2002. Our original intended utility application was complete, since it contained, a check for \$370 for the utility small entity fee, specification, claim, oath, and drawings.
30. We are filing a substitute specification, substitute claims, oath, and new formal drawings to correct the errors in the original complete application filed 1/30/2002.
31. We are submitting check # 1791 for \$220, as requested. However, if the original \$370 had not been split apart by the UPSTO, and \$165 had not been refunded, the original filing fee of \$370 would have been paid in full with check #322 on the original application filing date of 1/30/2002.
32. We think the \$220 amount is the wrong amount, but since it is requested by the USPTO, we are submitting it. We request all amounts due us after this matter is resolved to be refunded to us.
33. We also submit check # 1790 for \$130 for the Petition fee.

Declaration of Applicant Robert R. Pederson
Application No. 10/666,934
Title: Bob's Border Helper
Filed: 1/30/2002

I **hereby declare**, that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are so punishable by fine, imprisonment or both, under section 1001 Title 18 of the United States Code, and that such false statements may jeopardize the validity of the application and any patent issuing thereon, or nay patent to which this verified statement is directed.

ATTORNEY/APPLICANT COPY

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

RE: Application No.: 10/666,934
Title: BOB'S BORDER HELPER
Inventors: Robert R. Pederson and James c. Cicconi, Sr.
Filed: 1/30/2002

Dear Commissioner:

In response to the Notice of Incomplete Nonprovisonal Application dated 10/23/2003, my firm encloses the following:

- Check #1804 for \$220 (basic filing fee)
- Complete new specification and claims (19 pages)
- New Drawings (Figures 1, 2, 2a, 2B, 2c, #, #A, 3B, and 4) (4 sheets)
- Powers of attorney signed by both Applicants (2 pages)
- Supplemental Declaration signed by both Applicants (2 pages)
- Notice of Incomplete Nonprovisional Application mailed 10/23/2003 (2 pages)
- Certificate of Mailing (1 page)
- Postcard
- Transmittal Form (1 page)
- Fee Transmittal Form (1 page)
- Utility Patent Application Transmittal (1 page)

Please direct all correspondence to the address and phone number above.

Respectfully submitted,

Mary A. Whiting
Attorney for the Applicants
Reg. No. 30,601

SUPPLEMENTAL DECLARATION FOR UTILITY OR DESIGN PATENT APPLICATION (37 CFR 1.67)

Attorney Docket Number	
First Named Inventor	ROBERT R. PEDERSON
COMPLETE IF KNOWN	
Application Number	10/666,934
Filing Date	1/30/2002
Art Unit	
Examiner Name	

I hereby declare that:

Each inventor's residence, mailing address, and citizenship are as stated below next to their name.

I believe the inventor(s) named below to be the original and first inventor(s) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

BOB'S BORDER HELPER

(Title of the invention)

the specification of which

☐ is attached hereto

OR

ORIGINAL FILED ON

☒ was filed on (MM/DD/YYYY)

1/30/2002

as United States Application Number or PCT International

Application Number

29,154,901

and was amended on (MM/DD/YYYY)

changed to #

10/666,934

I hereby declare that the subject matter of the ☐ attached amendment ☐ amendment filed on was part of the invention and was invented before the filing date of the original application, above identified for such invention.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment specifically referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b) of any foreign application(s) for patent, inventor's or plant breeder's rights certificate(s), or 365(a) of any PCT international application which designated at least one country other than the United States of America, listed below and have also identified below, by checking the box, any foreign application for patent, inventor's or plant breeder's rights certificate(s), or of any PCT international application having a filing date before that of the application on which priority is claimed.

Prior Foreign Application Number(s)	Country	Foreign Filing Date (MM/DD/YYYY)	Priority Not Claimed	Certified Copy Attached?
			<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>

Additional foreign application numbers are listed on a supplemental priority data sheet PTO/SB/02B attached hereto.

This collection of information is required by 35 U.S.C. 115 and 37 CFR 1.63. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 21 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.
